Pertinent Paragraphs

Ladies Aid Meeting—The Wailuku Union Church Ladies Aid Society will meet with Mrs. Brown on Tuesday next.

Funds Overdrawn—County Auditor Wilcox told the board of supervisors at their meeting yesterday that there are overdrafts of \$19,437.29 in the general fund and \$23,549.32 in the hospital fund.

Rummage Sale Postponed—Announcement was made yesterday that the rummage sale which was to have been given by the Makawao Ladies Aid in the Paia band house has been postponed until June.

Registration Board Named—Notification has been sent the board of supervisors by Secretary of the Territory Raymond C. Brown of the naming of Manuel C. Ross John Ferreira and William E. Bal as the registration board.

New Seats Please—In the gallery of the Hippodrome new, comfortable, upholstered chairs have been installed in the center section and patrons of the theater are commending the improvement introduced by Manager Harris.

Intake Gets Clogged—Heavy rains up the valley brought down gravel and rocks to the intake of the water system so that the water was cut off from the users of the Wailuku-Kahului system for several hours early Wednesday morning until the intake could be cleared again.

Bean License Cancelled—Notification has come to the county from the land department that the bean license on the property that was taken for Kihel park has been cancelled and the former licensees permitted to take off the improvements they had on the land.

Manoa Out Sunday—The Kahului Railroad Company announced yesterday that the Manoa will go out Sunday night instead of tonight as previously reported. She will load more than 3000 tons of sugar and some 13,000 cases of canned pineapples besides miscellaneous freight. She arrived later than ordinarily this morning.

Land For Cut Off—The county can secure the land for the cutoff of the Kilauea road through the Ferguson property for \$200. The claim to that amount was approved by the board, payable when the deed to the county is executed and delivered. A bill is necessitated but the road will be shortened by a little more than three fifths of a mile.

Miss Babcock Returning—Prof. May Babcock who rendered delightful readings on Maui late last year is to return to Maui and will render another reading. She is coming back to make the Haleakala trip which she did not do on her former visit and while here has consented to give her reading "Caesar and Cleopatra" at the Territorial Building in Kahului on the evening of March 24.

Budget Next Month—At the beginning of the year the board of supervisors prepared a budget for the present quarter only and the appropriation bill was for that period. It will be necessary to adopt a new budget and pass a new appropriation bill next month. As yet the board has little more information as to probable assessed valuation than it had three months ago, except that there is \$2,000,000 in the valuation of H. C. & S. Co.

Territorial Aid Asked—At yesterday's session of the board of supervisors text of a proposed resolution asking territorial advances of tax money for Maui was received from the territorial treasurer. The resolution provides that not more than \$30,000 monthly for February, March and April may be advanced. Normally the county would not receive its tax money until in May. The resolution was immediately passed. Such advances will save the county a considerable sum in interest on registered warrants.

Bridge Damaged and Culvert Washed Out

Damage to roads and bridges is reported from the outside districts from recent heavy rains, especially in the section between Peahi and Kailua in which a part of a bridge went down and a culvert was washed out. As to the culvert an interesting point as to who should pay for repairs may be raised in consideration of the engineer's report.

Recently the county replaced a four by four by six foot culvert in the road. Up the hill the East Maui Irrigation Company has a reserve reservoir. The county engineer is told that during the heavy rain the reservoir was opened and the water carried down guava trees and bushes which caught other debris and blocked the culvert the washout resulting. The washout has been fixed temporarily.

Kapaoloa bridge was damaged, a part going down, according to reports. The county engineer has not yet been able to get to it but is informed it has been given temporary repairs by the East Maui Irrigation Company.

Body of John Haleanu Brought From Coast

Belated reports of the funeral of the late John Haleanu have been sent Maui News by friends of the family in Paia.

John Haleanu died at San Diego on January 16 last while in the submarine service of the navy and, to meet the wishes of his parents, the body was sent home, reaching Maui on February 25 and being taken at once to the home of the young man's parents. Arrangements after the arrival of the body at Kahului were made by F. B. Cameron until it was turned over to the parents.

Arriving at the parents home the inner casket was removed from the outer box and, as the mother wished to see her boy's face again, the slide was removed. Clad in his suit of blue the young man lay upon the white silk lining of the casket. It had been seven years since his parents had last looked upon him. Friends were also permitted to look upon him as the body lay in state from Saturday until Sunday noon, the casket draped with an American flag beneath which was a wreath of white carnations, purple flowers and maiden hair fern.

Numerous Hawaiian songs were sung by the Paia Catholic Church choir while the friends surrounded the casket, including Hawaii Hono and Aloha Oe.

At 2 o'clock the funeral procession proceeded in motor cars to the Kaula Catholic Church led by Father Theodore and the final services were held and the body laid to rest.

Mr. and Mrs. Haleanu express their gratitude to Mr. Cameron and to the many friends who performed various acts of kindness and sent floral offerings, including the Paia Hawaiian Sunday School and Ladies Aid Society Hui Manawale of the Latter Day Saints and others.

For the services the only brother and the sister of the deceased were present. Mr. and Mrs. Haleanu will go to Honolulu with the daughter for a two weeks visit.

Wailuku Militia Co. Will be Inspected for Final Acceptance

Wailuku's military company may expect to have a final recognition, which will mean uniforms and equipment, following inspection which is to be held on March 25. Captain Hinton says he expects Colonel Potter back on Maui at that time for the inspection.

Captain Hinton says his company now musters 70, while full strength is 78. His men are enthusiastic and turn out for close order drill from 6 to 7:30 each Saturday evening. Commis-sions were received this week by E. H. Moore as first lieutenant and P. W. Eichinger as second lieutenant.

The equipment of the machine gun company will include rifles as well as the machine guns and the drill is the same as an infantry company with the addition of machine gun training. There will be four of those guns and in time of service the machine gun company is split into four detachments one of which is assigned to each of the four battalions of the regiment.

Will Dump Gravel In Worst Mud Holes In Valley View Tract

Relief from muddy conditions and chuck holes brought a complaint from residents of the Valley View Tract and a request that the county do something to improve the conditions though they recognized that the road complained of is not a county road but a private thoroughfare never having been turned over to and accepted by the county from those who originally laid out the tract. The condition was analogous to that of the Amori tract which was before the board at the February meeting.

Yesterday action similar to that taken in the Amori Tract was decided upon. The district road overseer was told to put some gravel into the mud-diest holes on the road complained of as an emergency measure.

It developed that not much work had been done for the Amori Tract residents as the board had intended the road overseer having put gravel on the road that approaches into the tract but not on streets in the tract the intention of the board not having been made clear. He is asked to do some further work there.

Once more the question of assessing the owners of the roads, the title remaining in the original owner or owners, it was held, came up for some discussion but no action in that direction was taken.

Big Shipment of Cars Comes to Maui Motors

For Maui Motors Ltd., a big shipment of cars is on the Manoa today, between 40 and 50 in the lot. Fords lead the flock and there are of that popular car touring cars, 10 trucks, three sedans, two coupes and three roadsters. The other cars are Essex, three touring cars and one Essex cab, the latter being a distinct novelty on Maui. The company reports that it has cleared away all former shipments of Fords and has been awaiting for those that are arriving today.

Maui Motors is announcing a sweep-stake in the price of Fordson Tractors this week. Word came from the factory to reduce them from \$790 to \$540 a slash of almost a third. And the price means, Frank Loeey says, that the Fordson will be delivered for that price on the farm of Maui and with a tank full of gasoline. "Can you beat it?" he asks.

Maui Woman's Club

The monthly meeting of the club was on Monday last, and was held in the Kahului Union Church on account of the necessity of darkening the room for showing the Alaskan pictures of Mrs. Augustine Jones' Travelogue. These pictures, taken during a vacation spent in Alaska last year by Mr. and Mrs. Jones, were very fine and were presented in an extremely interesting manner by Mrs. Jones.

Considerable business was transacted before the program. \$50 was pledged towards a new car for Miss Seibert's use in the Girl Scout work. Mrs. Renee Whitehead was endorsed to succeed herself as probation officer. It was voted to establish a building fund for the proposed new club house and in this connection it was proposed that all members who have earned \$5.00 toward the fund, or who earn it from now on may send same to Mrs. Ben Williams, treasurer, Puanene, stating that it is for this purpose, and also stating how it was earned, as a matter of interest; the matter of presenting reports of the various departments and committees was discussed, and it was suggested that these reports should be given regularly, and if the chairman of each department or committee could not be present, she should send her report in by some one else to be read, this being desirable that new members may learn what is being done in the different departments and be aided in determining the department they wish to join. To get the most out of the club, all members should also be members of at least one department.

The Educational Department meets on Monday, March 13th, at 3 p. m., in the rest room of the County Library, Wailuku. Important business is to come before the department and all members are urged to be present.

The Study Department meets on Wednesday the 15th at 3 p. m., in the Territorial Building, continuing the study of parliamentary procedure.
